### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin Lyn (Reg. No. 42,818) on September 15, 2005.

The application has been amended as follows:

(a) Please cancel claims 37-75.

(b) Claim 1, line 2, insert -- the following steps, at least one of the steps being computer-executed -- after "comprising" and before the colon

### ***Allowable Subject Matter***

2. Claims 1-36 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is Yuri et al. (U.S. Patent No. 6,249,715). Yuri discloses a method for optimizing work distribution by taking into account the range of time required for skilled versus non-skilled workers to perform various tasks. A predicted operation time for each worker is determined based on a normal operation time per worker. Work is then balanced so as not to exceed a predetermined allowance of time required to perform the tasks. However, Yuri fails to disclose or suggest the

details of performing the work distribution optimization in relation to a plurality of projects, each project having a start date and a cycle time, arranging the projects according to start date and cycle time such that each task is at least partially performed in one of the intervals, determining a total effort equivalence for each interval corresponding to the sum of the effort equivalence apportionment for the tasks at least partially performed in that interval, comparing the total effort equivalence for each interval to a historical maximum effort equivalence volume, and modifying the projects based on this comparison. This combination of limitations is recited in claims 1-36; therefore, claims 1-36 are deemed to be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
